FULL FRONTLINE  
HISTORY

Restored by us in 2019, this beautiful Abingdon Edition is finished in a BMW Sapphire Black Metallic, with matching black leather interior and convertible hood. The car has covered just 10,000 miles since its restoration and has been serviced above and beyond schedule. This is a particularly well loved example of a Cherished car and has a comprehensive service history with us, with annual visits since the restoration and an outstanding condition throughout.
